London & Essex

## MISSION

I am currently studying a BA in Production Arts, Stage Management, at the Guildhall School of Music and Drama. I enjoy working with creatives, performers and production teams and hope to work as a Production Manager after graduating.

## PERSONAL SUMMARY

The past year's Covid restrictions have not held back my progress, rather it has presented new and interesting challenges, which have been overcome with innovation and creativity. This has included working on a digitalised production process, adapting to work in an online world and taking on extra responsibility for Health and Safety. The process of recording and live-streaming was a new experience that I found most rewarding.

Prior to studying at Guildhall, I was involved in numerous local theatre productions and music concerts, generally taking an on-stage role. For four years until December 2018, I was a theatre company assistant at a local children's theatre company. My interest has developed from performing to the production process. I have a keen interest in Production Management.
