### Notes:

1. Alex Gasson-Gray (ASM Book Cover) covered the role/plot of the Emily Robertson (Stage Manager) in this performance.
2. All intimacy moments through the play ran well tonight.
3. Of the 10 latecomers for this evening's performance, 8 were let in at the latecomers point during the start of Scene 2, and another 2 were let in during the end of Scene 3.
4. During Scene 9 a loud metallic bang was heard throughout the theatre, and was initially thought to have come from the upstage area. The Acting Stage Manager (Alex Gasson-Gray) investigated the loud noise behind the full black and couldn't find a cause to the loud noise, so no show stop was called. However, after the

show, and after speaking to an audience member, they claimed the noise came from under the SR seating bank. Upon investigation it was found a seating bank jack pole was left under the seating bank and is believed to be the cause of the loud noise. In future under the seating banks will be checked to ensure they're empty and all equipment under there isn't able to roll around.
