

Weapon Plot 2

As of Wednesday 25th May 2022

Opera:	Der Zar
Weapon:	Revolver (G15)
Completed by:	Alex Gasson-Gray

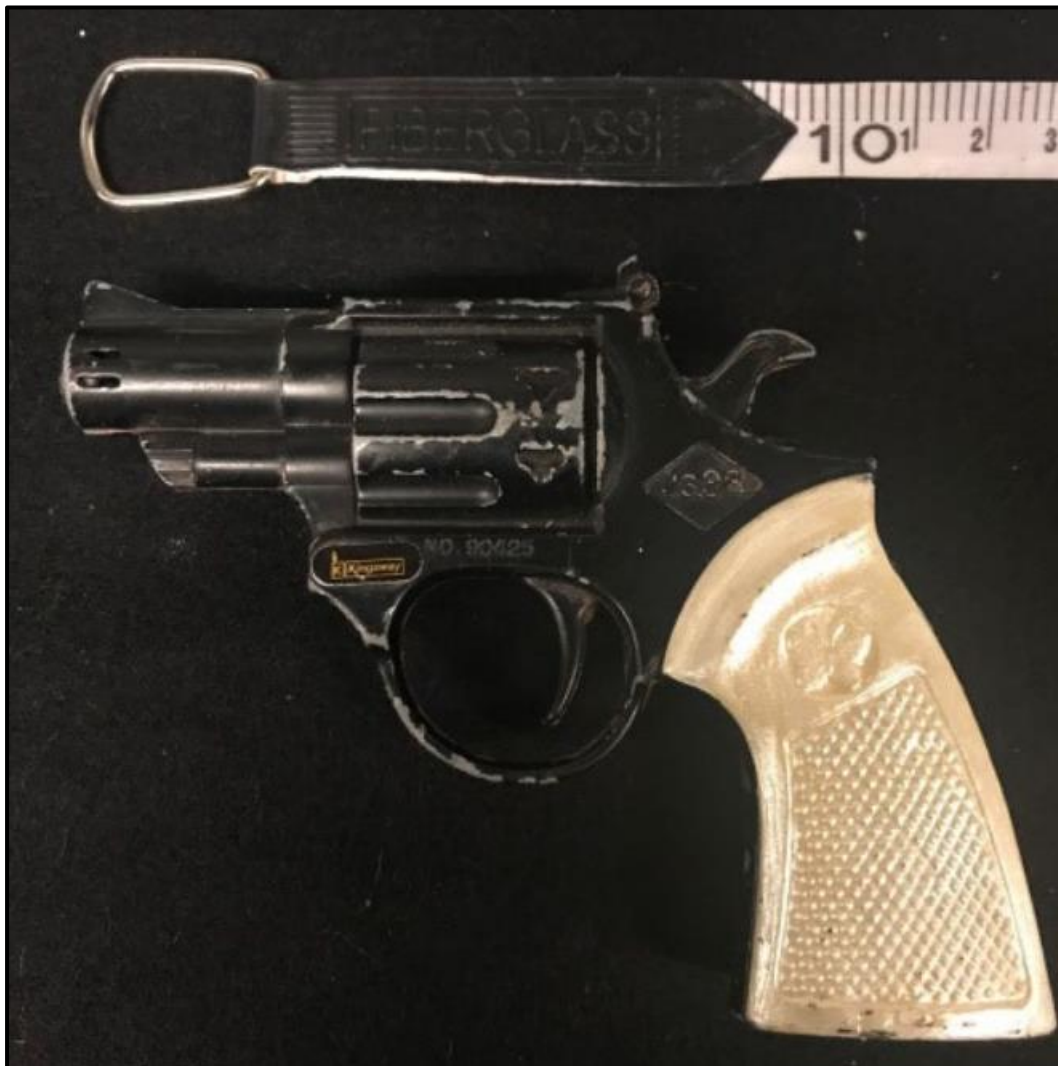

Please note: At all times, every weapon used in the production will be with a member of stage management. During performances, there is a locked cupboard in the Silk Street running room where an ASM will collect the weapon and distribute it when required.

The revolver has been sourced from the armoury cupboard at Guildhall School's Milton Court building.

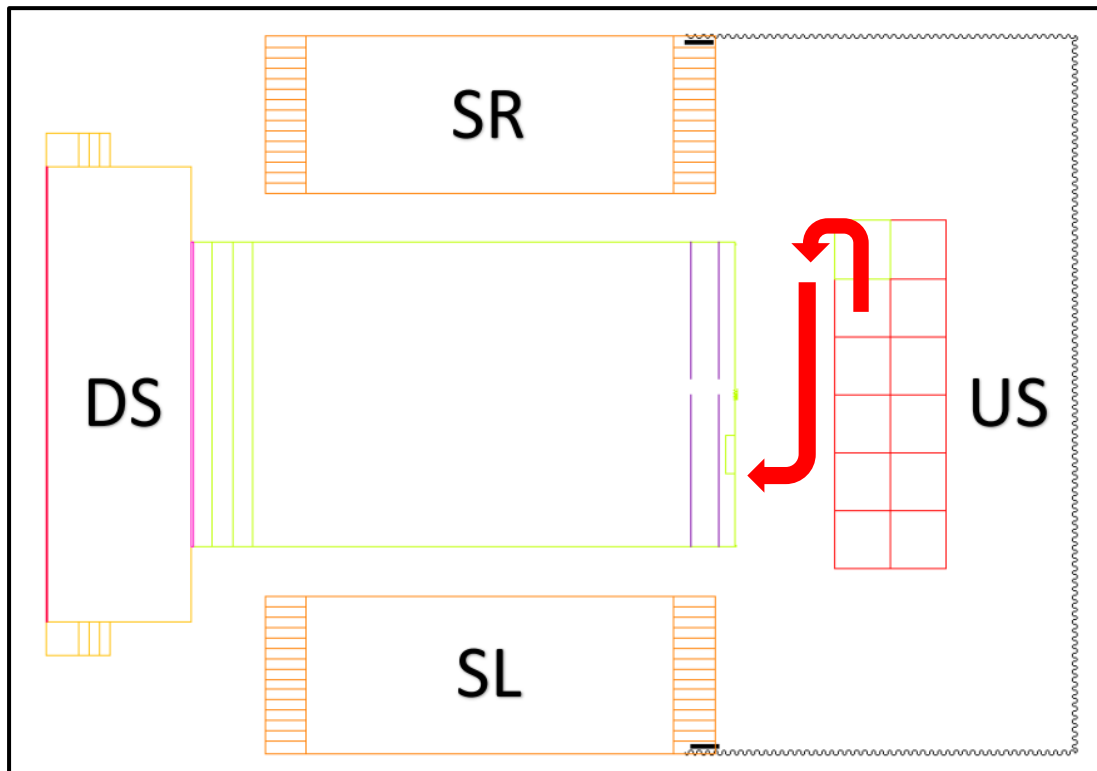

This is a personal prop of **Der Anfuhrer (Jack Dolan)**. He keeps this weapon either in his hand, or his coat pocket at all times whilst onstage.

G15 – Small Pearl Handled Revolver

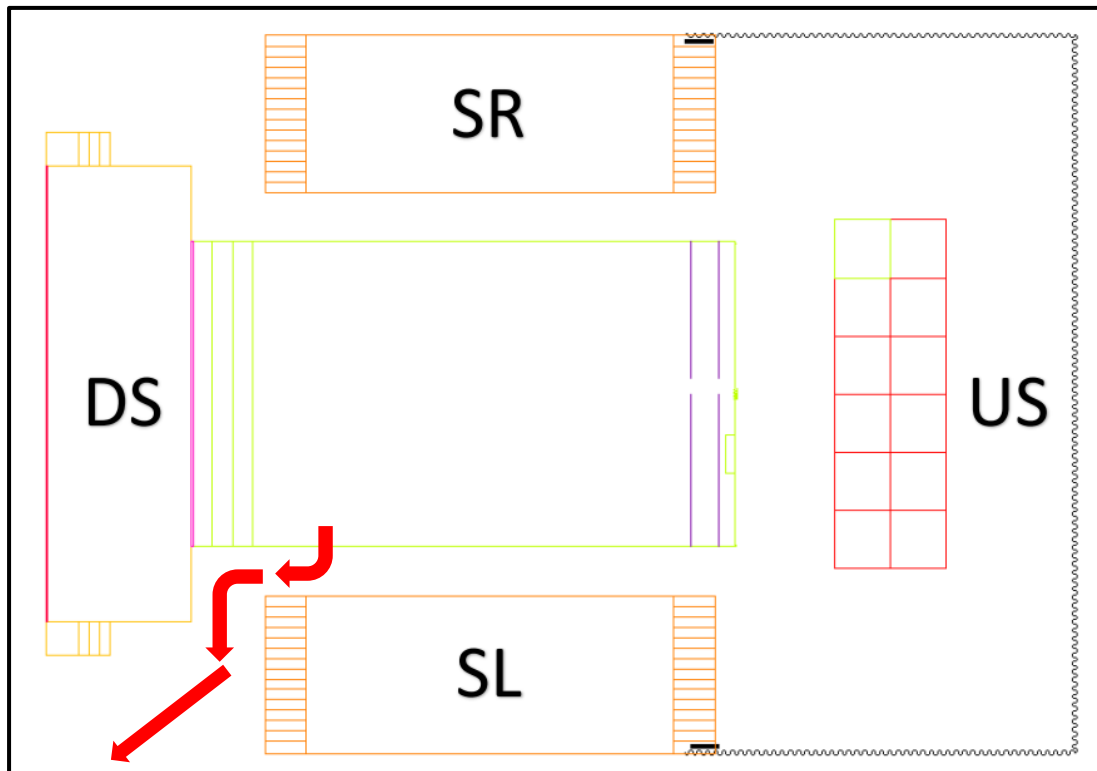

The movements of the revolver are shown in the diagrams below by red shapes (arrows & crosses).

1. **Der Zar @ (20/1/1)** – After collecting the revolver from the Weapons ASM, Der Anfuhrer (*Jack Dolan*) enters the space from US (substage) staircase. Then proceeds onto the main platform via the USL door.

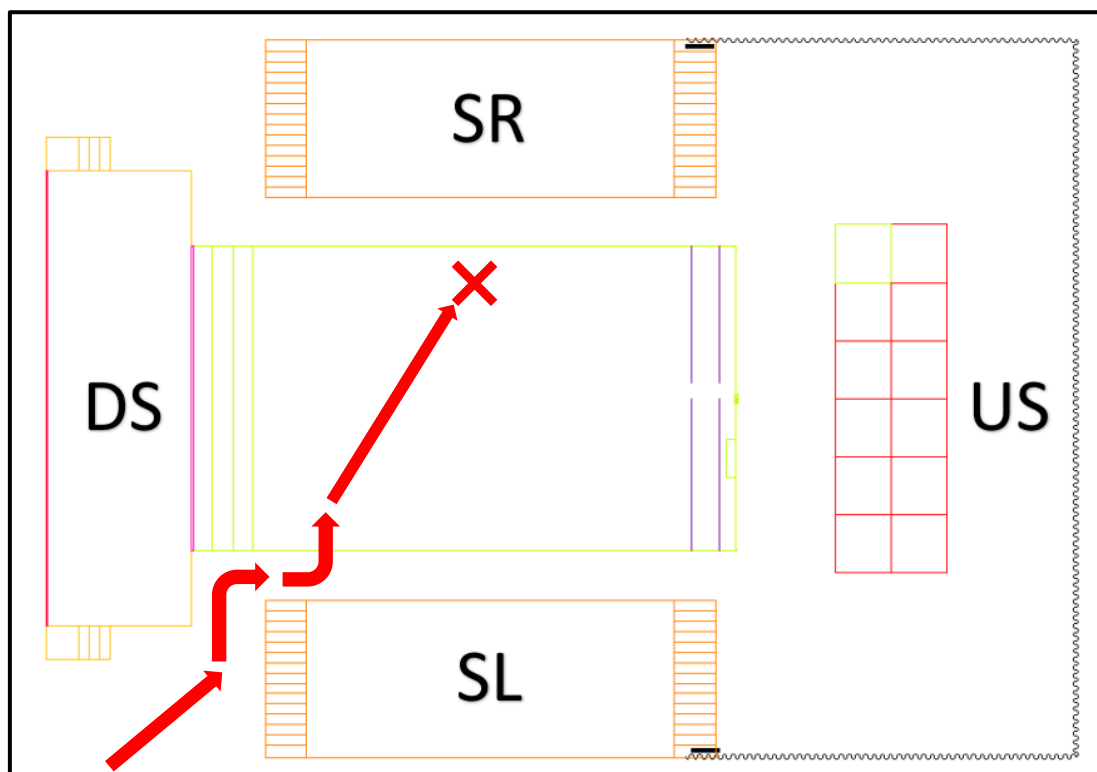

2. During this scene, Der Anfuhrer (*Jack Dolan*) holds the gun within his hand whilst he walks around the space. Occasionally he points the gun in the direction of Madame Angele (*Lorna McLean*), however he cheats the direction of the gun to the side of her, but not so much as to point it towards the audience.
3. Towards the end of his scene, he then places the gun within his coat pocket.

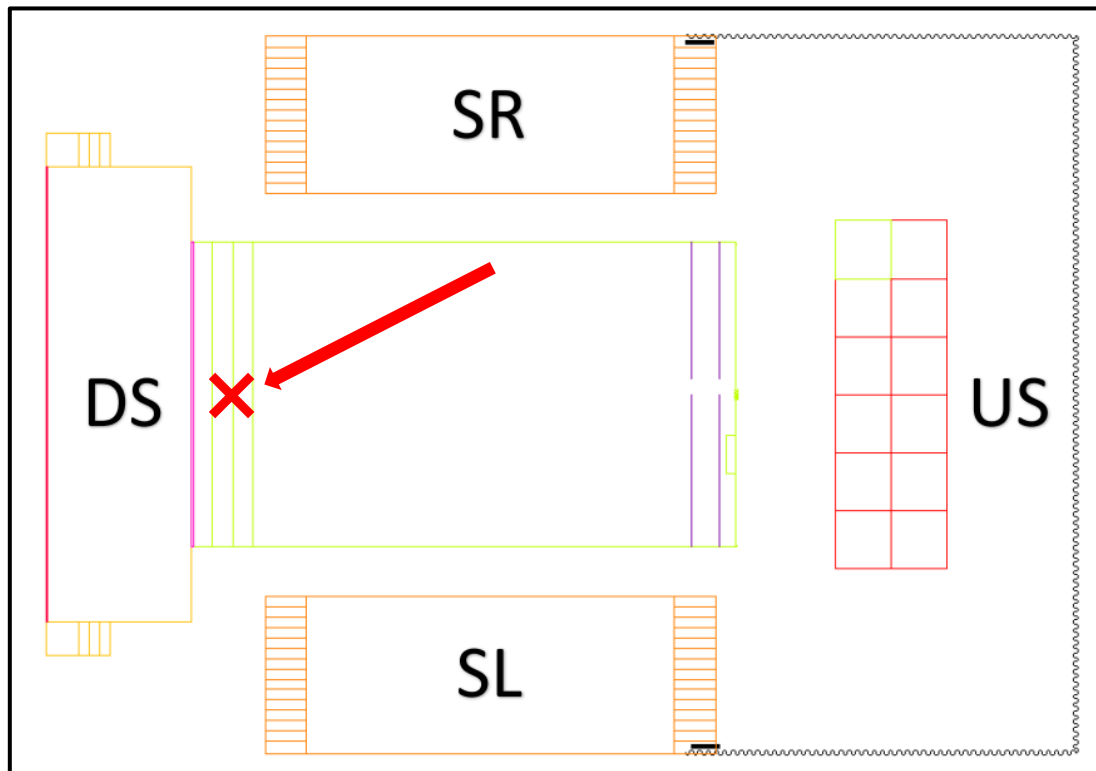

4. @ (38/2/1) – Der Anfuhrer (*Jack Dolan*) exits the stage to the DSL door.

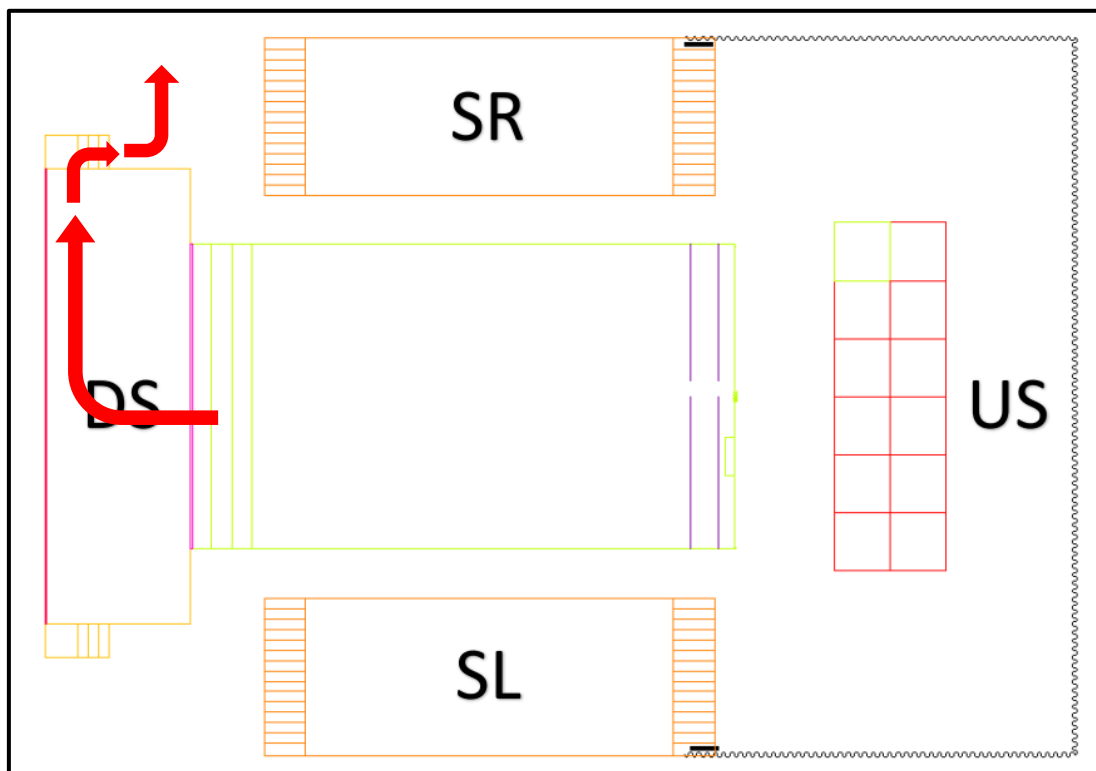

5. The revolver is handed over to the weapons ASM at the DSL exit, who then locks it away in the safe lockbox.
6. Der Anfuhrer (*Jack Dolan*) collects the gun from the ASM at the DSL exit.
7. @ (106/2/1) – Der Anfuhrer (*Jack Dolan*) enters the stage from the DSL door with the revolver in his hand and stands MSR.

8. @ (106/3/3) – Der Anführer (*Jack Dolan*) then runs up the DS stairs. [*Revolver still in hand*]

9. @ (108/2/4) – Der Anführer (*Jack Dolan*) exits the stage to the DSR Door (via the DS platform).

10. The revolver is then passed over to the Weapons ASM at the DSR exit, and it is then locked away in the Silk Street Armoury Cupboard.
