

Music Audition Video eSubmission

Recording Advice

Before you upload your video, it is important that you consider how to capture your performance to best represent your musical abilities to the panel.

We do not require professional recordings, but please record in a space where you are able to capture clear audio and visual footage. Please ensure that the camera is placed at an appropriate distance (not recorded from the back of a hall, or zoomed in too close) and ensure that the location has sufficient lighting. Watch your recording back before submitting, to ensure there is good picture clarity and that the sound is clear and well-balanced.
